

Rules

- Python for Everybody Specialization course (<https://www.coursera.org/specializations/python>). (All 5 courses) must be completed to graduate from the program. The team will be tracking your progress via the dashboard.
- Machine Learning Specialization course (<https://www.coursera.org/specializations/machine-learning-introduction>). (All 3 courses) must be completed to graduate from the program. The team will be tracking your progress via the dashboard.
- The participants are expected to attend at least 70% of classes to successfully graduate from the programme.
- The assignments in Coursera must be completed **on time (before the related session)**. We expect you to communicate with us if you are not able to complete your assignment before the specified deadline. Coursera will provide your certificates for each course.
- The participants are expected to be active on **Microsoft Teams Space** "FTL #3 Global ML Bootcamp". All the necessary documents will be stored in the space.
- The participants must avoid every form of plagiarism including cheating on examinations or assignments and they must abide by the [Coursera Honor Code](#).
- The participants are expected to be active on the **Discord server**. The official announcements, activity planning, collaboration and all communication will be on Discord. Thus, it is your responsibility to have Discord on your devices and make sure to get notifications.
- The participants should have or create a **Github** account to submit additional assignments.
- The participants will be given weekly **feedback forms** to share their opinion about classes. We kindly ask you to fill out these forms.
- Please read the **Code of Conduct** carefully. These set of rules are crucial in order to protect our safe space.
